

How should the visitor center influence the overall park experience?

VISITOR CENTER

0.5 Acres

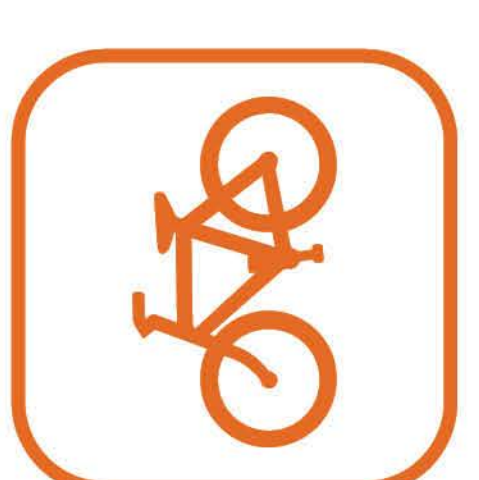

Visitors will start their park experience at a center with history and information about the site and educational programming. The center will accommodate shared office space for Parks & Recreation and the Sanitation Districts.

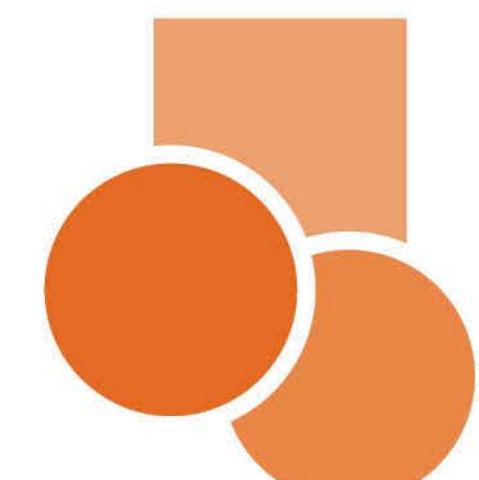

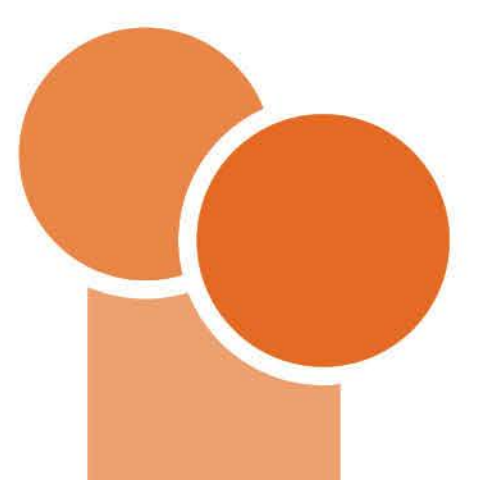

What does your design for the Visitor Center look like?

- What types of program should be featured at the Visitor Center?
- How much space should be given to parking areas?
- What educational programs would you prioritize in the design?

Participate in this exercise by arranging the provided elements around the Visitor Center. If a certain program or design element is important to you, give it more space!
